

A list of things we still need to do (no order of importance at the moment).

1. project notebook
2. fixing XML
3. refactoring
4. integrating what happens after clicking load.
5. integrating where our exercises are located.
6. Fixing the java 1.6 BlueJ issue.
7. Group presentation
8. 1 more regular presentation
9. Reviewing/Improving user stories.
10. Managing stakeholder's expectations.
11. Team building activity with whole group
12. Documentation.
