Message: A vision statement does more than create a vision - it can also resolve conflicts in teams.

Our mission statement: To inspire people to reach their computer science dreams by providing tools that help them overcome the barriers to programming.

Information we want to share.
- Our issue with project git and how it divided the team
- How creating a vision statement created a vision for the team, but also how it resolved the project git decision.
- What makes a good vision statement.
- How to create a vision statement.

Possible structure for the presentation.

1) Regular Introduction
2) Introduce a conflict.
3) Introduce how a vision statement can help resolve the conflict
4) Talk about how we created our vision statement
5) Talk about how the vision statement solved our conflict.
6) Talk about how it put us in the right direction for our final project.
7) Call to action and closer.

Detailed presentation.

Hello everyone and thank you for listening to our presentation. We would appreciate if you hold all questions until the end of the presentation.

Call to action: Create a mission statement for your team if you haven't done so already. It'll give your team a goal, but more importantly; resolve conflicts in your team.
